## G. H. ALTHAM DIES SUDDENLY AT VANCOUVER

Word was received here late yesterday of the sudden death of Mr. G. H. Altham, well known engineer with the Hillcrest Collieries Limited, which occurred following a critical operation.

Mr. Altham was predeceased by his wife only a few months ago, and is survived by two sons, residing at Hillcrest.

Up to the time of going to press, funeral arrangements had not been announced.

## AUGUST ALTERMATT DIES SUDDENLY

August Altermatt, a farmer of the Pincher Creek district, dropped dead while on his way to the barn on Tuesday evening.

His family, wondering at his delay in returning to the house, went in search of him and found the lifeless body in a corral.

Mr. Altermatt came from Barons in 1919 and has since resided in the Pincher Creek district. He was predeceased by his wife only two months ago and leave to mourn his loss two daughters and two sons, Mrs. Smith, Miss Dora Altermatt, Barney and Henry, all of Pincher Creek.

The coroner decided that an inquest was not necessary, and the remains will be laid to rest in the Pincher Creek cemetery this afternoon.

## FOOTBALL GAME AT HILLCREST SATURDAY

Hillcrest and Kimberley Tunnel will clash at Hillcrest on Saturday evening at 5.30 in a return game of their series in the play-offs for the Bennett shield, at present held by the visitors.

These two teams played to a scoreless draw at Kimberley on Saturday last, when even overtime did not permit either team to score. The game at Hillcrest should therefore prove interesting and should attract a huge crowd.

The winner of this series will meet Lethbridge, who recently defeated Redcliff 5 to 0.

## BELLEVUE FLOWER SHOW AND SPORTS NEXT MONDAY

Bellevue will be the mecca for holiday seekers and lovers of nature on Monday next, when the twelfth annual exhibition of the Bellevue and District Horticultural, Industrial and Poultry Society will be staged in the big arena.

We understand that, in spite of the long spell of extremely dry weather, those contemplating competing in this annual event have succeeded in maintaining their gardens to a very high standard through a liberal use of water supply, and that the exhibition of vegetables, flowers, etc., will not be below the average. The number of entries will be equal, if not more than last year, while it is certain the entries in school art will be greatly in excess.

The day's programme will start with a big parade to the sports-field at 10 a.m., where junior events will be staged. The senior sports will commence with the fourth annual five-mile marathon at 12.30, starting and finishing in front of Cole's theatre. Other events will be held at the field at 2.30, and will include: 100-yard sprint, quarter and half-mile foot races, obstacle race, one-leg race, old men's race, half-mile bicycle race, jumps, ladies' races, etc.

A grand dance at the I.O.O.F. hall at night will prove a fitting climax.

Miss Madeleine Chardon will resume her classes in piano and theory on September 3rd. Pupils prepared for both Royal Academy and Toronto Conservatory of Music. Phone 235 x 204.

## BLAIRMORE VACATION SCHOOL

The second daily vacation school was held under the auspices of the Blaimore United church, in their school rooms, from August 5 to 16. Children from all groups and churches attended, some of whom attend other Sunday schools than our own and some who attend no church school at all, but all are welcome and all have a good time.

The chief complaint heard from the boys and girls, was that the school was only held for two weeks this year, instead of for three weeks as last year. We were forced to advance the age limit from 12 to 14 years so that we could include many of those who attended last year, but who in the meantime had advanced beyond the age limit.

The programme of each day includes the following: Opening exercises, usually a hymn and prayer; a patriotic exercise, including the statute of the national and the Christian flags; a study period, including memorizing hymns, prayers and scripture; story period, used to teach religion in life situation and no attempt is made either in this period or any other to give denominational teaching; worship period; manual training period; games (in the older group there is much difficulty with this period, the boys and girls would rather work) and athletics, much enjoyed by the juniors.

Every day the collection jar is passed, so that they always bring the money on the right day.

A school of this kind is naturally expensive and is only possible by the generous support of parents, business men, and particularly the Blaimore Elks' lodge. The teachers and helpers, of whom there were seventeen this year, receive nothing whatever for their services. The school provides all teaching material, daily programmes, story material, music and songs. It provides a lunch of biscuits and milk for the two smaller grades. It provides material for hand-work, most of which the children take home. In the junior grade, this is an expensive item, for instance, this year \$7.90 worth of different kinds of crepe paper was used. Besides this, the school pays for the experiment work done during the year in preparation for the handwork. Altogether the cost this year totalled \$91.00, of this \$50.00 was very generously subscribed by the local Elks' lodge.

## THE SALVATION ARMY HARVEST FESTIVAL APPEAL

We wish to announce that our yearly Harvest Festival appeal will be made in all the towns of the Crow's Nest Pass during the month of September. This money is to be used for local purposes.

We thank you for your splendid support in the past and, although times are rather hard we trust you will do your best for us, and may God bless you in the giving.—Lieuts. J. B. Meakings and J. Zoutendyke.

## WOMEN WILL BE MEN!

The Lethbridge Herald of Tuesday remarks: "Mr. A. B. Hogg was hostess at a delightful dinner party."

Visit the new C.W.L. Hall in Bellevue, opposite the arena, on Labor Day. Refreshments will be served.

FOR SALE—Chevrolet Coupe, A-1 condition. A snap. F. Knapman, Blaimore.

## Announcement

MRS. ALTERMATT will begin teaching music SEPTEMBER 4th — \$1.50 per lesson. Those wishing to enrol please notify before that date. Can only take fifteen pupils—first come, first served. Phone 153.

### A New Horizon

A NEW horizon opens out before the man with money. With \$1,000 saved you can look to the future with confidence—start one of these easy savings plans now:—

\$1,000 in 4 years—costs \$940.16 in weekly payments of \$4.52.

\$1,000 in 3 years—costs \$956.28 in weekly payments of \$6.13.

\$1,000 in 2 years—costs \$970.32 in weekly payments of \$9.33.

WORLD HAPPENINGS  
BRIEFLY TOLD

Canada was the principal country with which the United States traded in June, leading all the other countries in both exports and imports.

Erich Remarque, author of "All Quiet on the Western Front," may be the recipient of the next Nobel prize for literature. It was reported from Stockholm.

The British Columbia Government recently announced the distribution of liquor profits amounting to \$682,919.48 covering the six-months period ended March 31.

The first repercussion of the small crop in western Canada was felt at Barnia, when the John Gooding Thresher Company reduced its operating staff by one-third.

Hon. Aubrey Morrison, Chief Justice of British Columbia, was among those who received the degree of doctor of laws at the convocation exercises at Dalhousie University, on August 28.

Closer co-operation in air transport matters throughout the world began between Great Britain and France, was discussed at a meeting of Lord Thomson and Laurent Eynac, respective Ministers for Air.

Miss K. Biondini, 24, is the first woman in the state of Victoria, Australia, to gain an air pilot's license. She has passed her final tests—these were pretty severe ones at that—with flying colors.

The Graf Zeppelin's flight from Friedrichshafen brought forth a \$200,000,000 project for regular German-Russian-Japanese air service with terminals in each of the three countries. It was announced that plans for the scheme are completed.

Sir Frederick Williams-Taylor, of Montreal, general manager of the Bank of Montreal, has resigned to assume the position of vice-president of the bank. H. B. MacKenzie, formerly assistant general manager, succeeds Sir Frederick as general manager.

## Big Jamboree Over

Many Friendships Made At Gathering Of Boy Scouts

Tens of thousands of boys trekked out of Arrow Park, England, when camp was broken and the great world jamboree of Boy Scouts came to an end. Fifty thousand boys left for their homes in nearly fifty different countries.

The previous night was passed largely in leave-taking as big contingents of boys toured the camp and bade their comrades farewell. At dawn they began to hurry through the park on their homeward journey to far countries of the earth. They took with them the farewell message from the chief scout issued before he left the camp, the keynote of which was "From now on the scout symbol of peace is a golden arrow."

The total number of visitors was 214,422. The next jamboree will be held in 1933. The place will be determined at a conference to be held at Salzburg, Austria.

## Development Of Peace River.

Country Has Gone Ahead Rapidly In Last Few Years

The first shipment of grain out of the Peace River District, was made up of three cars of wheat hauled by team 85 miles from Vanessa to Reno. There were no highways or telephones, and only two small rural schools then. Today, there are 1,600,000 acres under cultivation, with a prospective crop of 15,000,000 bushels. Population has increased from 5,000 to 50,000; there are schools, churches, flourishing stores, elevators, electric light plants, highways and telephones.

The farmer may hatch his chickens by electricity, raise them using electric light instead of sunlight, and finally fry them for the table by the use of an electric range.

Church At Jasper Is  
Soldier's Monument  
Gift Of English Lady In Memory Of  
Her Son

Unique among the churches of Canada is the little church of St. Mary and St. George of Jasper, which was consecrated recently by the Bishop of Edmonton. The building, a beautiful structure of stone and stucco, with a tiled roof, was built at a cost of \$17,000 from a design by A. H. Calderon, of Edmonton, and is a gift to the parish from a lady in England, who wishes her name to remain anonymous.

It was presented in memory of her son who was killed in war, and beneath the corner stone, which was laid last year by His Excellency the Governor-General, lies the testament which was found on the young man's body when he was carried out of "No Man's Land." The furnishings and fittings of the church were also the gift of the unknown donor, while the bell was presented by Viscount Wilkington.

## May Kill His Art

Russian Who Makes Pictures In Human Hair Deplores Bobbed

G. Boruchoff, the Russian artist who has received a certain distinction for his pictures in human hair, fears that the bobbed hair fashion may kill his art. He needs long strands for his work, and the supply of them is becoming shorter and shorter. At first glance Boruchoff's pictures are said to be indistinguishable from oil paintings. He blends the various shades of hair on his palette as an oil painter mixes his colors. His canvas is a piece of silk or linen cloth, and his brush a fine knitting needle. His method of weaving the hair into the cloth, he says, is similar to that used in making the famous Gobel tapestries. Boruchoff started producing his pictures at 10 years of age when apprenticed to a hairdresser, and while a war prisoner in Germany he spent his leisure in practice.

Futtering plaited skirt is such an attractive fashion for growing girls of 8, 10, 12 and 14 years, as seen in Style No. 605 with flat hipline, and simple bodice with neckline trimmed with plaited collar. Long sleeves also have turn-back plaited cuffs. Neckline and hipline bows show feminine influence. Printed dainty in red and white with bows of and so inexpensive. Gingham check in printed voile in brown and white with brown velvet bows, maize shade in shantung, and bow omitted, and sports weight linen in orchid shade with white organdy pleated collar and cuffs are dainty and practical suggestions. It can also be made with short sleeves as shown in small blue wool crepe with vivid red crepe chine pleated collar and cuffs. Pattern price 25 cents in stamps or coin (coin is preferred). Wrap coat carefully.

## AN OUTSTANDING EXHIBIT

In his address before the Rotary Club, during the Calgary Exhibition and stampee, Hon. J. D. McGregor, Lieutenant-Governor of Manitoba, for many years Canada's most outstanding live-stock man, referred especially to the demonstration put on by the C.P.R. Supply Farm, of Strathmore, which emphasized productive possibilities of good dairy cows. Mr. McGregor said that he considered it to be the best, from an educational point of view, he had ever seen at any live-stock show.

As shown in the accompanying photograph, five cows of various ages were used to emphasize that high production increases profits. Two mature cows and one four-year-old heifer, one three-year-old heifer, and one two-year-old heifer were included in the group. Each of these had finished an official record within five months, and their total production for 365 days was 127,583 lbs. of milk.

The first cow to the left, "Strathmore Sylvia-59340" by producing 29,371 lbs. of milk was recognized to be the highest milk producer in Canada, and their total production during the past year and a half, the second cow, "Belvedere de Koly-Ruby-52,632," finished on June 14th, with

27,892 lbs. of milk, and immediately was shipped to Brandon, where she won second prize in very strong competition. Her yearling heifer was first at Brandon, Calgary, Edmonton, Saskatoon, and Regina exhibitions, and was Junior Champion at Calgary and Regina.

The next left "Valley Farm Francis-154189." She produced 22,922 lbs. of milk, and 680 lbs. of butter, which is 2,357 lbs. of milk and 22.5 lbs. of butter more than the best two-year-old record reported in Canada in 1928.

The four-year-old next in line Strathmore, Texline, Sylvia-111845, produced 23,850 lbs. of milk and 1,052 lbs. of butter; while the one on the right, "Strathmore Lassie Sylvia-130501," as a three-year-old produced 23,568 lbs. of milk and 958 lbs. of butter.

According to the Dairy Commissioner of the Province of Alberta, the average dairy cow in that province produces 3,900 lbs. of 4 per cent. milk. These five cows produced as much as 32 average Alberta dairy cows. Their milk, sold to the Union Milk Co., Calgary, at regular dairy-men's prices, brought \$3,214.10, or an average of \$642.82 per cow. This

revenue returned more than \$475.00 per cow above feed costs.

The milk cans in the picture were used to illustrate the amount of milk produced in one year by Strathmore Sylvia. About one-sixth of the cans are visible in this picture. Altogether there were 479 cans—representing a production of 2,937 gallons of milk.

This exhibit attracted a constant stream of visitors who spent a good deal of time studying the material attractively displayed on show cards.

There are approximately 600 purebred Holsteins in the famous herd at Strathmore, Alberta. The show herd of 15 head won 169 first prizes at eight major exhibitions in 1928. Under the advanced registry system of the Holstein-Friesian Association of Canada, there are 40 Gold Medal and 73 Excellent cows in this herd. This is the largest number of Gold Medals in any herd in the world.

Some very distinguished visitors happened to come along just as this photograph was about to be taken. The two ladies are Dowager Lady Penrhyn and her daughter, Hon. Miss Sinclair. The gentlemen are Lord Penrhyn and, on the left, George H. Jones, manager of the Strathmore Farm.

Two ladies are Dowager Lady Penrhyn and her daughter, Hon. Miss Sinclair. The gentlemen are Lord Penrhyn and, on the left, George H. Jones, manager of the Strathmore Farm.

## Snow Houses a Myth

Few Eskimos Have Ever Seen Or Heard Of One

Eskimos are frequently seen sweating under a powerful sun. The general idea of Eskimos and all inhabitants of the Arctic Circle is that they live in conditions of eternal winter. Quite wrong Mr. Stefansson, the Arctic explorer, has been telling a Cambridge audience. The wildflowers of the Arctic are exquisite, he says, and very few Eskimos have ever seen a snow house—or heard of one except at school.

## Inside Information

Science has perfected a tiny camera that can be lowered into the human stomach to take x-ray pictures of the interior department from all angles. This is getting an inside view of the situation. Afterward the pictures may be enlarged.

A weekly airmail service between France and Madagascar will cross the Sahara Desert by night, and will be instituted as soon as the desert route is lighted.

## The Woman Who Has Tact Invariably Knows What Not To Do.

Light and airy—the flighty blonde.

## Test For Your Eyes

Normal Vision Sees Objects Clearly Fifty Yards Away

Are you good at judging distances? It is said if you have normal eyesight you should be able to see a man's eyes at fifty yards; at one hundred yards you may see the buttons on his coat; and at three hundred yards you may just see his face; while the color of his clothes can be distinguished at four hundred yards. Of course, on a clear day, things look nearer than when the day is cloudy.

## Larger Production Needed

"Larger production of high quality agricultural goods is what is necessary to Canada if the country is to continue as an exporter of agricultural products," declared Hon. Mth-erwell, Federal Minister of Agriculture, informally opening Vancouver's 20th annual exhibition.

## SUNDAY SCHOOL LESSON

SEPTEMBER 1

## EZRA'S RETURN TO JERUSALEM

Golden Text: "The hand of our God is upon all them that seek him, for good."—Ezra 8:22.

Lesson: Ezra 7:1 to 8:36.

Devotional Reading: Psalm 63:1-8.

## Explanations and Comments

With the permission of Artaxerxes, Ezra Goes To Jerusalem, 7:6-10. Ezra was a descendant of Seraiah, the chief priest during the reign of the last King of Judah, and traced his ancestry back to Aaron. He was a "ready scribe of the law which the Lord God of Israel had given." He studied the law, and not only copied it but interpreted it. He requested permission from King Artaxerxes to go to Jerusalem, and this the king readily granted. With a company of Jews who wished to settle in Judea, and with priests, scribes and singers for the temple service, he set out to keep the temple gates (1 Ch. 9:17), and Nehemiah, servants for the temple (Neh. 1:3).

He set out in the fourth month (Nisan, March-April), of the seventh year of King Artaxerxes, and arrived in Jerusalem in the fifth month (Ab, July-August), after a journey of nearly four months. His purpose in going to Jerusalem was to teach the statutes and ordinances of the law to the people there. As for himself, he had "set his heart to do the law of Jehovah," and what was more, "to do it."

Between the knowing what should be done and the doing of it there is, alas! too often a gap never bridged. Mere knowing about others' needs or mere expression of regret is not enough; it is not enough to know the law of Jehovah, and what was more, "to do it."

The Voltairean states that the Jews who remained in Babylon, and who were surrounded by a population wholly heathen, were marked off from their neighbors by a much deeper line of cleavage than that of the Christians, and a higher standard of religious devotion prevailed among them; consequently, the religious heathen of the people of Jerusalem became known as Babylonians, Ezra was sent to inquire into it (verse 14), to introduce reforms.

Artaxerxes, the Persian king, to enforce the observance of the Law by means of penalties (verse 26). Artaxerxes not only granted Ezra's request, but also gave him much gold and silver for the temple, and also a letter in which he directed his officers in Judea to do whatever Ezra might ask. "Blessed be Jehovah, the God of our fathers," exclaimed Ezra, "who hath put such a thing as this in the king's heart, to beautify the house of Jehovah, and hath extended loving-kindness unto me."

## Victim Of June Blizzard

Lost in a blizzard that howled down out of the Arctic on June 21 last, Ivan McKay Christie, Bathurst settler, was frozen to death. His faithful husky dog was recovered alive by the search party that set out on the trapper's trail after the blizzard had spent its force and is now at the Royal Canadian Mounted Police northern headquarters at Bathurst. Christie's body was buried at Bathurst Inlet.

### The Singing Fool

By HUBERT DAIL  
Copyright, 1923, Warner Bros. Pictures, Inc.

#### SYNOPSIS

Al Stone, the singing waiter at Blackie Joe's New York night club, has written a love song to Molly Winton, but she treats him disdainfully because he is only a waiter. Finally he goes to the floor and renders the ballad himself, hoping to touch her heart. Marcus, the famous Broadway producer, is in the audience and offers to buy the song. Molly makes up to Al, so the latter insists that Marcus hire Molly to sing the number in one of his revues. Marcus agrees, and the little cigarette girl, in heart-broken when she finds Al is leaving, for she is deeply in love with him. Al and Molly marry and both score successes on Broadway. Once Al visits his old friends at Blackie's and Grace is delighted to see him. Then he returns to Molly's dressing room in a Broadway theatre. She is with his friend John Perry. Al does not see John surreptitiously press Molly's hand as all three leave together.

#### CHAPTER X

They descended the elevator from the Manhattan Roof Theatre to the street, where Al looked around for a taxi. John Perry, following after, took Molly's arm, guiding her through the dense after-theatre crowds toward the curb.

Broadway was at its best—two wide currents of human beings moved compactly up and down beneath the brilliant canopy of lights from electric signs. There was romance in the crowds, and power, and feeling of dreams carried from the theatres that dotted the Street of Lights. There was a thrill, a color for taxis, the giggles of girls leaning on the arms of their escorts, the piercing whistle of the traffic cops stopping and starting the never-ending line of motor cars as the lights went from green to red, and back again. A happy, carefree spirit distinguished the crowd. But Molly turned bored eyes on this fantastic display of modern Babylon as she waited impatiently for the taxi.

"Why doesn't Al hurry and get one?" she inquired petulantly of John Perry.

"Steady, sister. He's doing the best he can," answered Perry.

But now a taxi driver saw Al's beckoning hand and swung up to the curb. They piled inside and the driver sped away toward the palatial skyscraper apartment in the fifties where Al and Molly lived. Molly snuggled down between the two men.

"Al," she remarked after a moment, "why do we always have to travel in taxis? Why can't we have a limousine and a chauffeur of our own. Everybody else does."

Al did not notice the complaining note in her voice. "I've been thinking that same thing—we can swing it easily now. Tomorrow you can pick one out. What kind?"

"I was thinking of a Rolls-Royce," said Molly eagerly.

Al laughed and Perry gave a little laugh.

"Nothing cheap about Molly," said the racketeer.

"No, that's all right," interjected Al. "Whatever Molly wants she shall have. I feel I just can't do enough for her, Rolls-Royce it is."

They rode in silence until the taxi drew up before the apartment building that meant home to Al and Molly. As they stepped out, Perry hung back, as though to say good-night. But Molly turned to him.

"No, John, I want you to come in."

"Of course," agreed Al. "What do you mean by backing out?"

So Perry laughingly acquiesced. Once more the rapidly rising elevator—a magnificently upholstered one this time—which carried them with amazing swiftness to the thirty-fourth floor. Al unlocked the apartment door and switched on the lights. A moment later Molly stood by the window, looking over the blazing lights of the city, gazing down at the spires of the "skyscraper" that were people her cheeks were hot for the moment and she threw open the window so that the crisp autumn night air fanned her face. Al had left the room, John Perry came and stood beside her, saying nothing, but regarding her with burning intensity.

Molly turned and answered his look with a wan smile. "No, John," she said quickly. "No, you don't understand."

"Understand what?"

"What I'm up against. It doesn't concern you. But . . . sometimes I feel I'd like to shoot myself."

She reached out her hand, gave his arm a convulsive squeeze, then dropped it quickly as she heard Al returning.

Al was the perfect host. He drew out a pack of cards, swung open a little drinking cabinet and poured Perry a drink. "But when Molly saw the cards she expostulated."

"Al, darling, I don't feel like cards tonight. I'm awfully tired. Let's just talk. Or, rather, you two men talk and I'll listen."

So Molly listened, but Perry soon saw that she was out of sorts and seemed about to drop off to sleep. He courteously rose to go.

"Well, Al, I'll probably see you tomorrow over in Marcus's office."

He bowed himself out and Al faced Molly.

"Darling, are you ill? You're quite pale now; I have a strange feeling that something is wrong. You haven't been yourself lately."

Molly looked at him steadily, with a dark gleam in her blue eyes. Should she tell him?

"Yes, Al, something is the matter. I'm going to have a child."

She said it deliberately and her lip curled, plainly showing her irritation.

But Al, unconscious of her reaction, came swiftly to her, his face radiant.

"Molly, that's—that's marvellous. A child—your child, my child!"

"Your child," Molly corrected him curiously.

"Why do you say that? It's as much yours as mine."

"I say it because I don't want it," Molly's attractive lips were set in a grin line.

"But why, Molly? You're not giving that away because you're tired. You've had to work too hard. Listen, little sweetheart, when it arrives you'll love it; we'll both love it."

It's bound to mean the greatest happiness in the world to both of us. Don't you see that?"

"No, I don't. I see that it will ruin my career. I'll have to leave the show in a little while and while I'm gone Marcus will get a new ballad singer. People will forget me by the time I'm ready to come back. And how do I know Marcus will give me back my job? I have the best spot in the show now. Your point of view is just plain selfish, because the whole thing doesn't affect you. But I see the other side."

Al stared at her bewilderedly for a moment. Then he said quietly: "Molly, your nerves are on edge or you wouldn't talk that way. You don't have to be afraid—Marcus will always put you in as his headliner. He knows I wouldn't write another song for him if he didn't. But he wouldn't think of giving you the job, anyway. He knows what an attraction you are."

Al paused to regard Molly with a reassuring smile, but she did not see it. Her eyes were fixed somberly upon the floor.

A helpless look passed across Al's face.

"As for my being selfish," he said humbly, "well, perhaps I am. But I don't mean to be. I simply adore you, Molly, and it would give me the greatest happiness I can think of for us to have a child. It would make all we have achieved seem worth while."

Molly rose wearily, "I'm going to bed."

Without kissing Al good night or even looking at him, she walked slowly toward her bedroom, her head dejectedly forward. He heard her bedroom door slam sharply.

Instead of going to his own room and undressing Al lit a cigarette and paced the floor. At first he was agitated and worried about Molly. But gradually he argued himself out of the disturbed state of mind. After all, it was natural that she should be upset. Perhaps the strain of her nightly performances was too much for her. In the morning this cloud would pass from her.

He finished his cigarette, put out the lights and went to the drawing room window, whence he could look out on the yellow glow from the city lights.

As he stood by the window, dreaming, meditating, already planning the future of the child that was to be born to him, he heard the tinkle of the phone in Molly's room. Her door must have opened for he heard Molly's faint voice:

"No, no. You mustn't call me."

Before Molly hung up Al thought he caught the word "John." But no, he must have been mistaken. John Perry wouldn't be calling up at this hour.

(To be Continued.)

#### Broadcast Sensations

##### Of Parachute Jump

Man Started To Talk At Height Of 10,000 Feet

The sensations experienced by a parachute jumper were broadcast from Roosevelt Field, New York, by Henry G. Bushmeyer, while he was plunging to earth from a height of 10,000 feet. It was believed to be the first experiment of its kind.

Bushmeyer carried a 24-pound short wave transmitting radio set strapped to him, and held the microphone in his hand. When he stepped off his airplane 10,000 feet up he started to talk into the "mike" and the words were picked up on the field by a short wave set, transmitted to the New York studio of the National Broadcasting Station, and then sent out over a network of stations.

If one be troubled with corns, he will find in Holloway's Corn Remover an application that will entirely relieve suffering.

Judged By Newspaper. No one can deny it. A city is also judged by its newspaper. If its newspaper has a standard in its treatment and display of news, in its features and in its editorial column, these facts soon make their impression. If the newspaper is so important, the city will suffer. No institution has a more serious relation to a city's reputation than a city's newspaper.

After Two Years A bottle thrown overhead from the liner "Cetic" in July, 1927, has been found at Rochford, France, after two years bobbing over the sea. It had been tossed overhead at some point between New York and the Azores, and the Gulf Stream has carried it across the Atlantic.

Some desert plants contain water which travellers find useful in quenching their thirst.

Mind's Lullament For Neuritis.

#### Plan Nation Wide Broadcasts

Canadian National Railways Have Ambitious Program Mapped Out

"That the next twelve months will see the greatest advance in broadcasting in Canada that has ever taken place since the commencement of the art a few years ago" is the prediction of W. D. Robb, vice-president, Canadian National Railways, in whose department radio is included. "Two major factors will bring this about," continued Mr. Robb. "The extension of regular weekly schedule of network broadcasting on a national scale, and a marked improvement in programmes generally, and especially by providing more opportunity for Canadians to hear outstanding talent from their own country."

"I can only speak for the Canadian National Railways, but as the nation's greatest broadcaster, now operating thirteen stations and owning the only system of wires adapted for broadcasting under one direction stretching from Coast to Coast, we are planning to institute marked improvements ourselves and to co-operate in every way possible to assist other broadcasters in doing similarly. Commencing in October, we are planning to extend our National network three times weekly from the Maritimes to the Rocky Mountains, and once or twice from Atlantic to Pacific."

"These regular weekly national broadcasts should go far to create a better mutual understanding among the Peoples, and more closely the elements and interests within our country and remove the feeling of isolation felt in not a few communities."

#### Making Long Trip

Party From Jasper Covering Historic Fur Trade Route In Specially Constructed Canoe

With a specially constructed canoe, "Curly" Phillips, well known guide of Jasper National Park, is taking a party of five Americans from the east on a thirteen hundred mile trip through the waterways of the north country, commencing at Summit Lake behind Prince George, B.C., and finishing at Waterways, Alberta, on the Athabasca River. The party will cover the historic route of the fur traders by which many of the early travellers into Western Canada, during the first half of the last century, reached the Pacific Ocean.

#### KEEP CHILDREN WELL DURING HOT WEATHER

Every mother knows how fatal the hot summer months are to small children. Cholera, dysentery, diarrhoea, and stomach troubles are rife at this time and take a precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevent stomach and bowel troubles, or if trouble comes—as it generally does—the Tablets will bring the baby safely through. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

#### Variety Is Right

E. Olney, of New London, Ohio, believes in variety in settlers effects brought to Canada. He cleared customs at North Portal, Sask., with a Red speed wagon containing household goods. On the trailer he carried a small menagerie, consisting of two raccoons, two guinea pigs, and a badger. Mr. Olney will locate on land at White Court, Alberta.

Muscular Rheumatism Subdued.—When one is a sufferer from muscular rheumatism he cannot do better than to have the region rubbed with Dr. Thomas' Electric Oil. Let the rubbing be brisk and continue until ease is secured. There is more virtue in a bottle of it than can be fully estimated.

#### Keeping a Sound Body

If thou wouldst preserve a sound body, use fasting and walking; if a healthy soul, fasting and praying. Walking exercises the body; praying exercises the soul; and fasting cleanses both.

Germany is developing its natural parks.

There are no railroads in the Kingdom of Afghanistan.

#### Little Helps For This Week

"Thy kingdom come."—Matthew vi. 10.

Thy kingdom come with power and grace.

To every heart of man;

Thy peace, Thy joy, Thy righteousness.

In all our bosoms reign.

—Charles Wesley.

"Thy kingdom of heaven is not come when God's will is our law; it is come when God's will is our law; while God's will is our law we are free children. Philomena had gone forth to see the world, and he had seen it; and he had learned that God's kingdom was not a kingdom of fanaticism, but a kingdom of faith, of willing, living, obedient hearts."

—Charles Kingsley.

#### Priceless Relics Preserved

Sweden Has Richest In World Protected By Laws

Sweden's prehistoric relics are the richest in the world, and this is because the same race has inhabited the country for about 15,000 years, says Professor Curman, State Antiquarian. The scientific museums of Sweden contain more than half a million treasures of antiquity. The structure of the landscapes, with patches of fertile soil lying among barren areas, thick forests or craggy hills, has also helped to preserve these materials of ancient days. These natural obstacles have kept farmers from encroaching upon the sites where prehistoric tombs, fortifications and Viking rune stones have been hidden. Moreover, the Swedish Government realized 300 years ago the importance of preserving relics of antiquity and enacted laws to that end.

#### Might Congest Traffic

A western town is striving for safety first, having a bylaw which reads as follows: "When two cars come to a crossing both shall stop and neither shall start until the other is gone." If this is carefully observed, there will be few collisions, but some slight traffic congestion may result.

#### A Valuable Seed Pod

Price Of Rare Orchid Is Estimated At \$150,000

Probably the most valuable flower seed pod in the world was recently on display at the Chelsea Flower Show, London, England. A single flower sprang from one of the seeds sold for more than \$1,500, and others sold for \$1,000. It is estimated that the entire pod with seed is worth \$150,000. The pod is the fertilization of a rare orchid, the *Millettia Armstrongii*.

A commercial fertilizer plant to cost \$7,000,000 is to be built at Trail, British Columbia.

Higher education in Canada is carried on in 23 universities and 85 colleges.

WHEN a cold or exposure brings aches and pains that penetrate to your very bones, there is always quick relief in Aspirin. It will make short work of that headache or any little pain. Just as effective in the more serious suffering from neuralgia, neuritis, rheumatism or lumbago. No ache or pain is ever too deep-seated for Aspirin to relieve, and they don't affect the heart. All druggists, with proven directions for various uses which many people have found invaluable in the relief of pains and aches of many kinds.

## ASPIRIN

Aspirin is a Trademark Registered in Canada

## Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 60 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will promptly ease in five minutes. Then you will always know what to do. Crude and harmful methods will never appear to you. Give your life for your own sake. It may save a great many disagreeable hours. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acid. Each bottle contains full directions—say druggists.

Blairmore, Alta., Thurs., Aug. 29, 1929

**PREMIER HONORS**  
**FOR DOMINION**

The following letter from the principal of Toronto Conservatory of Music must have been very gratifying to Elizabeth Moores and her teacher, W. J. Harris, of Coleman:

"Toronto, July 25.

"An analysis of the markings in connection with our 1929 examinations for Toronto and throughout the Dominion, including both mid-winter and mid-summer examinations, reveals the fact that you have scored the highest number of marks awarded this season to any candidate in our introductory school violin examinations. You are, therefore, entitled to the Conservatory's introductory school violin silver medal, which will be forwarded to you in due course.

"I desire to congratulate you and your teacher on your well deserved success, and trust that your musical studies may proceed as satisfactory in the future as during the season which recently came to a close.

Ernest McMillan, Principal."

**SOME STRANGE EPITAPHS**

What moves people to put such stuff on tombstones, one knows not, but in the earlier days it was a custom that was more or less strictly followed. Here is an epitaph in England that not only tells the cause of death, but something about those that were left behind:

"From life to death—a sudden stroke—

His head was by a saw-grate broke.

The purple gore in streams did run,

He left a widder and an son."

And another from the same vicinity concerning Mrs. Jennings, mother of a large family:

"Some have children—some have none;  
Here lies the mother of twenty-one."

Then there was the case of John Round. He went out on a ship and never came back. Yet in his native seacoast town, the village cemetery tells the world:

"Under this sod lies John Round,  
Who was lost at sea and never found."

Here are some more striking epitaphs that may be found in the queer old churchyards throughout the world:

"Here lies the body of Nancy Gwynn,  
Who was so very pure within.  
She burst her outer shell of sin,  
And hatched herself a cherubim."

And this was the end of Tommy Tucker:

"Too much blood, a vein did bust,  
And stretched Tom Tucker down in dust."

In Croxson parish churchyard, in Surrey, England, there is a tombstone which bears the simple inscription:

"Here lies an honest tinner."

Those who view this stone generally remark: "That's strange!" And they would be right, for the man who lies buried there was John Strange, one-time lawyer of that community.

In another churchyard in the County of Surrey, England, there is a tombstone erected in memory of a local politician, who was supposed to have more than his share of the "gift of the gab," and was something of a braggart, too. The inscription on this stone reads:

"Here lies a man as may God me save,

Whose mouth was as wide as his grave;

So tread lightly stranger o'er the sod,  
For if he gape, you're gone by God!"

Here is one that tells the story of an old maid in terse style:

"Here lies Ann Mann;  
She lived an old maid  
And died an old Mann."

Ohio is credited with this epitaph: "Under the sod and under these trees  
Lies the body of Solomon Pease;

He's not in this hole,

But only his pod—  
He shelled out his soul,  
And went up to God."

And here are two lines that tell the story of a young lady who had claimed her six feet of earth:

"Death loves a shining mark,  
And in this case he had it."

Let the symposium be closed with this epitaph over the grave of a miser:

"Here lies old \$3 per cent,  
The more he had the more he lent,  
The more he got, the more he craved,  
The more he made, the more he shaved;

Great God! can such a soul be saved?"

No, just a few more lines:

"Here lies my wife, Sallie;  
Let her lie.  
She's at peace—and so am I."

**COWLEY HAPPENINGS**

W. F. Blackburn and family were week-end visitors with M. A. Murphy and family.

Miss Edith Murphy has returned from a two weeks' visit with friends in the Fishburn district.

H. C. Morrison and family spent Sunday visiting Mr. and Mrs. Brown and family at Pincher Creek.

Born, on September 25th, at the Pincher Creek hospital, to Mr. and Mrs. Robertson, a son. Congratulations.

The conference of the Pincher Creek and Rocky Mountain constituency was held at Lundbreck on Tuesday of this week. On this occasion the weather was ideal, which in one way proved to be a hindrance, as it kept a large number of the country women from attending owing to the harvesting. On account of this, the crowd was smaller than usual, but everything went off in splendid form and order. Mrs. F. C. Alcock, of Champion, district director; Mrs. C. Lynch-Staunton, of Lundbreck, district convenor, and Mrs. Bent, president of the Lundbreck Women's Institute, occupied the platform. The conference opened by singing the national anthem and "O Canada," when next in order was the address of welcome by Mrs. Blanchard, of Burmis, delivered in her pleasant and thorough style, and replied to by Mrs. M. A. Murphy, of Cowley, stressing as she did the importance of the work done, the far-reaching effects, etc., of the Women's Institutes. The Institute Creed was repeated, taking the form of prayer. Mrs. Blanchard, the constituency secretary, read a well rounded out report of the doings of the last year's conference, which was held at Cowley. Next in order came the reports of the branch institutes of the constituency by Mrs. Hamilton, of Beaver Mines; Mrs. Bent, of Lundbreck; Mrs. Morrison, of Cowley, and Mrs. Smyth, of Ashvale. The reports of the standing committees were read by Mrs. Hamilton, Mrs. Fortier, Mrs. Morrison, Mrs. Bent and Mrs. Blanchard. Two piano solos were rendered in excellent style by Mrs. Ed. Grove, of Lundbreck, while Pat Smith, a gifted elocutionist, gave a reading, entitled "Sister's Beau." All through the conference, Mrs. Lynch-Staunton gave words of encouragement to those taking part. Mrs. Alcock's address was attentively listened to. New officers for the ensuing term were elected, with Mrs. Blanchard as constituency convenor and Mrs. M. A. Murphy as secretary-treasurer. Nearing the close of the conference, Mrs. Alcock was given a beautiful bouquet of cut flowers, the gift of the Lundbreck W. I., which was presented by little Miss Smith, who in return received a hearty kiss from the district director. The best was left for the last, when the crowd sat down to a tastefully and artistically decorated table, which bore up under its weight of cut flowers, enhancing the beauty of a most tempting repast. The conference next year will be held at Ashvale.

Schools at Bellevue, Passburg and Burmis re-opened for the fall term on Monday.

**380**  
Statistics gathered by the New Brunswick Government bureau of information and tourist travel show an increase of 25 per cent. in the number of motor tourists from the United States entering Canada at border points of the province starting their vacation in Canada.

His Excellency the Governor-General of Canada will extend his patronage to the Canadian Pacific series of concerts of British and Canadian music to be given across Canada, beginning in September and continuing until Spring of 1930, according to information given out by J. Murray Gibson, general publicity agent of the railway.

Fishing bowed to chivalry one day recently at St. Ignace Island, Canadian Pacific angling resort on the Georgian Bay, when Judge B. Williams of Jackson, Mich., got a bite simultaneously with his wife, both fishing from the same boat. The guide couldn't handle the canoe so that both anglers would have a chance to land a fish, so the judge put pressure on his catch which broke away Mrs. Williams, after a half-hour fight landed a fine fish.

Lord Luke of Pavviam, chairman of Bovril Ltd., arrived in Canada recently on the Empress of Australia en route to Australia. His Lordship is operating a settlement scheme in the Argentine whereby farmers rent lands from a company, paying 15 per cent. on the company's marketing of their crops. He is contemplating a similar company in Australia in connection with sheep raising. He will also exercise possibilities in the Prairies for a similar settlement organization.

Heavy entries are reported for all classes of athletics, playing and dancing events to be decided at the Highland Gathering and Scottish Music Festival to be held at Banff, August 30-September 2, as also for the Dominion track and Field Championships to be held there Labor Day. A practically new track has been built at Banff to accommodate the sports scheduled.

Dissolution of the present Japanese Government and the advent of a new one within a year is predicted by Viscount E. Murohachi, Japanese Minister to Scandinavia, who arrived at Vancouver recently aboard Canadian Pacific steamer Empress of France on his way to resume diplomatic duties at Stockholm. The present Japanese Premier is in minority control of the Diet.

William Baird, steamship passenger traffic manager of the Canadian Pacific Railway who inspected the Bremen in New York recently, said that in view of the shorter distances between Cherbourg and Quebec as compared with Cherbourg and New York, the 49,000-ton new Canadian Pacific liner Empress of Britain to be placed in Atlantic service next spring might make a strong bid for the blue flag of the Atlantic. This linerless will be an oil burner 730 feet long, 27-foot beam and will carry more than 1100 passengers in first, second and third class.

Paul Scull, all-American half-back and star of the University of Pennsylvania, has added to his credits by earning in company with Ray Gates and Ed Hopkinson the coveted gold button of the famous order of Trail Riders of the Canadian Rockies. With a cook and guide, the trio made an expedition from Banff to the Columbia Ice Fields, said to be the largest body of ice south of the Arctic Circle.

'Commercial apple crop in the province of Nova Scotia this year will total about 1,500,000 barrels, about 420,000 barrels more than last year. The Ontario crop is estimated at 770,000 barrels, up 210,000 barrels over 1928. The British Columbia crop is placed at 2,535,100 boxes, about 19 per cent. less than last year. The raspberry crop is reported good all over the Dominion.

As a result of experiments conducted over several years past, officials of the Canadian Federal Department of Agriculture feel assured that two or three varieties of wheat have been at last developed that will resist rust. No names have yet been given the new varieties and it will be two or three years before they can be produced in sufficient quantities for seed distribution.

Hans Andersen, his wife, two daughters and two sons, are the first settlers to arrive for the new Danish Colony in Hants County, Nova Scotia, which is being promoted by the Canadian Pacific Railway Colonization and Development Department. They have gone to the Walton district where they purchased a farm and will go into dairying and hog raising on a large scale.

Since 1921 the total turbine installations in the Dominion has increased from 2,754,000 horse-power to 5,250,000, more than 50 per cent. horse-power having been installed in 1928. Developments now nearing completion or in active prospectus, on completion, add a further two million horse-power within the next few years. In the Prairie Provinces the developed horse-power has nearly trebled since 1921.

### POWERFUL C.N.R. LOCOMOTIVE COMMENCED RUN MONDAY

**MONTREAL, Aug. 26.**—A bulking mass of steel, line and throbbing with power sufficient to supply electrical energy to light the industrial plants, stores and homes of the city of St. Boniface, Manitoba, with its 16,000 inhabitants, a new mammoth of the rails unlike any steam locomotive known in railway history, commenced its initial run this morning from Montreal to Toronto, a distance of 334 miles, hauling the second section of "The International Limited," the foremost of the Canadian National Railway Limited trains. Oil-electric locomotive No. 9000, as this latest addition to Canadian National motive power is known, is unique the world over as the largest and most powerful locomotive of its kind on the globe.

The new locomotive has created a

tremendous interest in railway circles and for its initial run, representatives of some of the large United States railways as well as motive power experts of Canadian and American electrical corporations and locomotive works were on hand to watch its performance. A large press party of newspaper representatives and the chief executives and presidents of the various boards of trade of the cities on the route of "The International Limited" were also present.

The successful development of oil-electric locomotive No. 9000 was due largely to S. J. Hungerford, vice-president of operation and construction of the National System, and C. E. Brooks, chief of motive power. Briefly it is the application of the oil-electric car to the locomotive, oil fuel being used to operate the engine which drives the electric generator, and the power from the latter furnishes the energy to turn the propul-

sion motors.

It isn't the man who smiles that counts,  
When everything goes dead wrong,  
Nor is it the man who meets defeat,  
Singing a gay little song;  
The song and the smile are well worth while,  
Provided they aren't a bluff,  
But here's to the man who smiles and sings,  
And then—produces the stuff.

"I was so confused I don't know how many times he kissed me."  
"What! With the thing going on right under your nose."

The new Corbin road was opened to traffic on Wednesday of last week, with the completion of a temporary connection with the Red Trail from underneath the C.P.R. bridge near the Loop.

**Whippet** SIX DE LUXE SEDAN \$1070

John Factory  
lasts extra

WHIPPET Sedan value has always "led the field", but when you see the new De Luxe Whippet Six Sedan you'll have a new idea of what "full value" really means—

It now has a new and larger body, designed by a creator of custom cars. Trim smart lines, rich color harmonies. A roomier interior, comfortably upholstered and well appointed.

The new Whippet's increased wheelbase, shock absorbers, oversized ball joints and longer springs both front and rear, all combine to effect superb riding qualities.

Extra crew-members in the frame of the new Whippet, together with the advanced type of frame construction

### Many Important Features

The new Whippet is the only low-priced car with all these vital advantages: full force-feed lubrication, silent timing chain, "Finger-Tip Control", invar-strut pistons, big four-wheel brakes, and, in the Six, a heavy seven-bearing crankshaft.

See and drive the Whippet at your earliest opportunity. You will find its beauty instantly appealing, its performance remarkably brilliant, and long service will prove Whippet's dependability and operating economy.

### The High Cost of Sickness

Ten billion dollars a year, or one-ninth of the annual income of the United States, goes in that country to pay for illness or to repair damages inflicted by it, according to one responsible authority quoted in a recent issue of "The Literary Digest."

It is doubtful if in Canada the necessary information is available and data compiled to enable an estimate to be made of the costs of sickness to the Dominion as a whole. Probably in this more northerly climate and less congested centres of population, sickness is not quite so prevalent, although, on the other hand, owing to the distance which many of our rural population are from doctors, hospitals and nurses, the average cost per patient may be somewhat higher than across the line.

Some of the figures quoted by "The Literary Digest" as applicable to the United States may, therefore, be not so very far off in their relation to Canada. At all events, they are arresting and thought provoking.

It is stated that the average individual between the cradle and the grave spends one-fourth of his time in bed because of incapacitating illness, and that for the same reason the average worker loses two per cent. of his time, or a fraction more than seven days a year.

The people of the United States, it is asserted, are paying for the treatment of disease not less than \$2,500,000,000 a year, or approximately \$100 per family. In addition there is an estimated annual loss of \$2,000,000,000 as a result of decreased wage-earning capacity. And there is a still further permanently interrupted wage-earning capacity through post-natal deaths, estimated to be \$8,000,000,000, making the total annual cost of disease to the people of the United States, \$10,000,000,000. The total annual income of the country is about \$80,000,000,000.

Can any people afford to pay such a staggering sum, constituting, as it does, such a large proportion of their total income on such a non-productive, destructive thing as disease and preventable death? The United States census returns makes answer. According to this official compilation, 49.7 per cent. of patients in general hospitals, in 1923, were able to pay in full; 19.3 per cent. of patients paid in part, and 31 per cent. patients paid nothing. While no reliable data is available as to the extent that patients paid for the services of physicians, it is reasonable to suppose that physicians were paid at much the same ratio as the hospitals. If so, then only about one-half of the people paid in full for services required as a result of illness; 20 per cent. paid in part, while 30 per cent. paid nothing.

The conclusion reached is, that for the great mass of families with incomes below \$1,200 a year, there is only one of two alternatives when sickness overtakes them—medical charity or financial tragedy.

The further conclusion is reached that there are just two ways for lowering the cost of medical care. One way is by the prevention of unnecessary disease, certainly the best and sanest way—and the other way is through the use of an organized medical service.

An organized medical service, it is pointed out, can be offered on financial returns considerably smaller than the cost would be if the patient obtained the same service from his own doctor, or from hospital specialists. An organized service makes possible economies which are not possible in an unorganized service. Certain examples are cited:

Through an organized medical service, some of the large universities are able to render a thoroughly modern medical service, including hospital care, to their students for from \$9 to \$12 per student a year.

The Endicott-Johnson Corporation, with its 16,000 employees and their families represent a population of approximately 60,000 people. The Corporation gives these employees and their families a medical service which includes the full-time services of 27 physicians, 3 dentists, 1 X-ray technician, 51 nurses, and 2 pharmacists, for an annual cost of \$6 to \$7 per capita for the whole industrial population.

The industrial settlement of the industrial district of Rapid, North Carolina, composed of workers of five cotton mills and one paper mill, gives a modern, efficient medical service, including hospital care, home visits, a public-health nursing, for \$23.60 per family, or at approximately \$9 per capita.

The insurance principle is urged as the remedy, and an effective one, for providing adequate medical care for a very large percentage of the people, and it is believed that insurance companies will, in time, embrace it as a part of their protective programme.

### Add New Export To Canada's List

**British and German Dealers Repeat  
Order For Fresh Salmon**

A new product has been added to the exports of Canada to Britain and Germany in the shape of fresh Gaspé salmon. A few weeks ago a trial shipment of fresh salmon, frozen by a new brine solution leaving the fish as fresh as when it was taken out of its native waters, was sent to British and German fish dealers, who were so pleased with the result, that an order for 25 tons soon followed. Many more orders are expected.

Some of the wells drilled in rock salt deposits in China in order to pump up the brine are as deep as 8,000 feet.

It is estimated that there are 44,000 thunder storms occurring daily on the earth.

The art of pottery dates back as far as we can trace the human race.

### Studies Alberta River

**U.S. Engineers Work On Problem To  
Prevent Mississippi Floods**

With a view to obtaining information which might lead to the offsetting of Mississippi floods, George Archibald of the Corps of Engineers of the U.S. War Department is investigating Canadian storage facilities in the hope that if the peaks of the floods of the Milk River in Alberta and its tributaries in Saskatchewan were smoothed off by the construction of reservoirs, the condition of the Mississippi area might be changed for the better. He intends to study intensely the conditions at the headwaters of the Milk River on the eastern slope of the Rockies near the Montana border. From its source here the Milk River flows north into Canada and then turns south again, its waters finally flowing into the Mississippi.

### Due To Several Reasons

Never before has Saskatchewan been able to get through the work of the harvest season without help from the East. It will be possible this year for the first time because of the relatively small crop, use of labor saving machines such as combines, and the increase in western industrial population.

### Messages By Heliograph

Heliographs have been successfully used for the regular transmission of messages between Prince Albert, Saskatchewan, and a station in the Prince Albert National Park over a distance of 30 miles.

### Canada Wild Life

**Shipped To Ireland**

**Sent By Express To Zoological  
Gardens At Dublin**

Noah's Ark on a small scale passed through Montreal recently in the form of a shipment of Canadian wild life on the way from Toronto to the Zoological Gardens, at Dublin, Ireland. This special shipment was handled by the Canadian National Express, the crates being transferred from Bonaventure Station to the S.S. Lord Antrim, which carried bird and beast to the Irish Free State. The consignment consisted of two beavers, one eagle, two woodchucks, two raccoons and four prairie dogs.

### DO YOU VALUE HEALTH?

**Sickness Almost Always Due To  
Weak, Watery Blood**

If your health is poor; if you are pale, nervous and easily tired; if you suffer from headache or back aches; if there are touches of indigestion, or twinges of rheumatism, you may depend upon it that these symptoms come from an impoverished condition of the blood, and that unless this condition is remedied a complete breakdown may follow. To any who are in this condition, Dr. Williams' Pink Pills will be found the perfect medicine. The whole mission of this medicine is to build up the blood, promote appetite and good digestion, and strengthen tired, frayed nerves. Men and women alike benefit through the use of this medicine. Therefore if you are weak or ailing, give Dr. Williams' Pink Pills a fair trial and you will be pleased with the beneficial results that will speedily follow.

Among the thousands who have found Dr. Williams' Pink Pills a real blessing is Mrs. Geo. M. Andrews, Halifax, N.S., who says:—"My first experience with Dr. Williams' Pink Pills was as an anemic young girl, when they completely restored my health. Then a few years ago I became pale and run down, and my husband got a supply of the pills for me. I gave them a good trial and when my baby was born she was a big healthy baby and I did not have a bad hair day since. My friends all know how well I look and I certainly feel that way, and I give all the credit to Dr. Williams' medicine. I hope my experience will help some other woman who needs a good medicine."

You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Honored Carrier Pigeon

**Marble Plaque To Its Memory  
Unveiled At Verdun**

The heroic City of Verdun saw the unveiling of perhaps the most novel war memorial in the world.

It is a marble plaque to the memory of the last carrier pigeon, No. 787-15, which on June 4, 1916, left the beleaguered fort of Vaux amid a storm of gas shells and machine gun fire.

It carried a message from Major Raynal, the commander of the fort, which read:

"We are still holding out, but we are meeting a very dangerous gas and smoke attack. It is urgent to relieve us. This is my last pigeon."

The pigeon got through, and was awarded the Legion of Honor and the Croix de Guerre. It was kept in the army pigeon headquarters as a pensioner until it died about four years ago.

Many infants are infected by worms which cause great suffering, and if not promptly dealt with may cause constitutional weaknesses difficult to remedy. Miller's Worm Powder will clean the stomach, rid the bowels of worms and will act upon the system that there will be no recurrence of the trouble. And not only this, but they will repair the injuries to the organs that worms cause and restore them to soundness.

It is always hard to convince a pretty girl that love is blind.

Beauty may be merely skin deep, but it is nearly always effective.

**WOMAN SO  
SICK COULD  
NOT WORK**

**Helped by Taking Lydia E. Pinkham's Vegetable Compound**

"I heard that good Lydia E. Pinkham's medicine and I tried it. I was so sick that I could not work at all and I could not sew on the machine. My aunt told me of Lydia E. Pinkham's Vegetable Compound and I am telling all of my friends how good it is and I will answer all letters I get from women."—Mrs. MARY SCHULTZ, Grinnell, Sask.

### SHIP YOUR GRAIN

— TO —

**McBean Bros.**

Crop conditions the world over appear to be unsatisfactory this year, so much so that the price of grain has advanced to a point where it is our world conditions that our wheat should be worth to the farmer. The average estimate as last year they took 100,000 bushels, and European crops this year are short of last, we have every indication of a shortage in surplus before another crop is harvested. For this reason we look for wheat to sell at \$1.25 per bushel, barley at \$1.25, and oats at \$1.25.

By shipping your grain to us you can obtain substantial advance price, and hold for a favorable market. Winnipeg, August 15, 1923.

### New British Liner

**"Britannic" Of White Star Line Is  
Largest British Man-of-War**

The twin-screw motor passenger liner "Britannic," built by Messrs. Harland & Wolff, Limited, for the White Star Line, has been successfully launched from the builder's yard at Belfast.

The "Britannic" is intended for the Liverpool-New York service of her owners, the White Star Line, and will be a notable addition to the White Star fleet, being the largest British motorship.

The accommodation provided for the 1,550 passengers (cabin, tourist, and third class), will set up a new standard on this route, noteworthy features being the swimming pool and tennis courts in the cabin class, and children's playrooms and sports in the tourist and third class accommodations. The size of the "Britannic" has given ample opportunity for spacious planning and effortless design in the cabin class, and children's playrooms and sports in the tourist and third class accommodations. The size of the "Britannic" has given ample opportunity for spacious planning and effortless design in the cabin class, and children's playrooms and sports in the tourist and third class accommodations.

The electric throughout the ship is carried out completely, and this is a feature of the main range, but such supplementary appliances as grills, roasters, fish fryers, salamanders, griddle plates and hot presses. In this connection the bulk of the oven, together with the oven in the confectioner's shop, is also electrically operated.

It is expected that the "Britannic" will be the most popular ship sailing out of the port of New York during the tourist season. Never before has the tourist to enter to the tourist who cannot afford the money demanded for the first class ships, and it is felt that a cabin class ship, such as the "Britannic" will fill a very necessary place in the shipping line of New York.

**A Prime Dressing For Wounds.**—In some factories and workshops carbolic acid is kept for use in cauterizing wounds and cuts sustained by the workmen. Far better to keep on hand a bottle of Dr. Thomas' Electric Oil. It is just as quick in action and does not scar the skin or burn the flesh.

### No Cause For Alarm

**Oil Drillers Could Penetrate Earth  
Thirty Miles Without Danger**

Some of the oil wells in Alberta are unobscured to have been drilled a mile down into the earth's surface. Uneasiness has been felt that perhaps this drilling is going a bit too deep. But there's no danger.

A Harvard professor has told the Geological society that the core of the earth is a sea of dense liquid gas on which oceans and continents float and slide. This core is surrounded by successive shells. If the Alberta oil drillers have pierced a shell or two, they're still a long way from tapping the liquid gas that, presumably, if allowed to escape, would poison the continent. To get down to it they will have to drill thirty miles.

**Choked For Air.** Some little tritulant becomes lodged in the bronchial tubes, others farther, and the result is a case of asthma results. Nothing offers quite such quick and positive relief as Dr. J. D. Kellogg's Asthma Remedy. The healing, soothing smoke or vapor penetrates, clears the passages and gives untold relief. It has behind it 25 years of success, it is the sure remedy for every sufferer.

### Must Have Been Heavily

Wife (on honeymoon): "Do you remember our first meeting?"  
Hubby (a dentist): "Should I ever forget it? That heavenly afternoon when we were together for two hours and I extracted three of your darling little teeth."

Keep Minard's Liniment always handy.

### Seeing Persia From Air

**Takes Eight Hours Compared To  
Forty Days By Canal**

Seeing the Euphrates from the air is one of the inducements being offered by the new air service that connects Baghdad and Gaza. The management claims that in no other way can the beauty of the river and of Persia be fully appreciated. The view of the serpentine river at the time the "bird of the morning" struggles to break through, is unusual. As the sun finally bursts forth in all its glory, the stream takes on more and more the appearance of a snake, twisting and writhing, its skin dazzling metal. A splendid view of the Dead Sea is also obtainable. The trip by air takes eight hours, compared with 40 days of travel by canal.

### Services Not Accepted

**Rain-Maker Offered Showers To  
Saskatchewan For Ten  
Thousand Dollars**

Promises of a rain-maker to extract from Saskatchewan's cloudless skies any required amount of rain, met with a respectful reception by Regina council.

A quaintly worded letter from T. Y. Wojnowski, LaSalle, Ill., carried the offer. It was addressed to the office of the city of Regina, Saskatchewan, Canada, and came by registered mail. The communication read: "Honorable Sir: At present I offer you mine services to make the rain. Mine salary will be \$10,000, and rain how much you wish? Respectfully, T. Y. Wojnowski." The letter will be filed among the city records.

### Had Diarrhoea Bowels So Active Fearing For His Life

Mrs. S. J. Jago, Canobie, N.B., writes:—"My little boy, when three years old, had a severe attack of diarrhoea. The bowels were so active, and he vomited so much, I feared for his life. I tried many medicines, but he was always getting worse. A friend told me of..."

and after the doctor does I use an improvement. I gave him almost half a bottle and he was completely relieved. I have used it for the other children, and my husband and myself. My husband gives it great praise. When he goes away from home to work he always takes a bottle with him. Put up only by The T. Milburn Co., Ltd., Toronto, Ont.

### Wireless For Chateau Laurier Hotel

Special wireless and broadcasting and receiving equipment in the Chateau Laurier Hotel, in Ottawa, make it possible for addresses delivered in one part of the hotel to be heard in other public rooms, or in private suites.

By their works do we know them—the spongers.

### So Many Home Uses!

Keep fresh longer by covering them with Para-San!

The Para-San to keep Daddy's lunch safely fresh!

YOU'LL FIND A hundred vital, serving uses for Para-San! Heavy Waxed Paper in your home. Comes in handy, sanitary, knife-edged package. For less cost, longer use of "Centre Plut" Waxed Tissue (flat sheets). At grocers, druggists, stationers.

Offers, among others, the following Courses:  
Through its FACULTY OF ARTS and SCIENCE courses leading to the degrees of B.A., B.Sc., and B.Ec., and through its FACULTY OF MEDICINE courses leading to the degrees of M.D. and Ch.D., and through its FACULTY OF AGRICULTURE and HOME ECONOMICS courses leading to the degrees of B.S. and B.H.Ec., and through its FACULTY OF LAW courses leading to the degree of LL.B. For terms of admission, details of courses and other information, apply to W. J. SPENCE, Registrar, University of Manitoba, Winnipeg.

### Noted Inventor Dead

**Sir Ernest De La Rue Found New Way To Make Paper Maché Splints**

Sir Ernest De La Rue, remembered largely for his invention of a new way of making paper maché splints and boots in the world war, is dead at the age of 77 years. His method was adopted by the majority of the war hospital depots and he organized and financed a Dillingham branch, which turned out many thousands of splints and boots.

Sir Ernest also was noted as the inventor of the electric starting gate used by the Jockey Club, and as a designer and constructor of the whole of the decoration of the great Albert Hall, one of London's most famous gathering places.

Protect the child from the ravages of worms by using Mother Graves' Worm Exterminator. It is a standard remedy, and years of use have enhanced its reputation.

### Canada's National Parks

**Province Of Alberta Has Seven Areas  
Totaling 8,662 Square Miles**

Out of the 11,574 square miles devoted to national parks throughout Canada, the Province of Alberta has 8,662 square miles. There are seven park areas in the province, the largest being Jasper National Park, with an area of 5,380 square miles; Rocky Mountain Park is next in size with 2,781 square miles; Banff Park has 1,975 square miles; Elk Island, 51 square miles; Nemiskian, 8.05 square miles, and Waterton, 226 square miles.

### Minard's Liniment For Summer Colds

American tourists this season will spend \$300,000,000 in Canada, according to a Canadian bank forecast.

It is estimated that more than 1,000,000 stars have already been seen through powerful telescopes.

## BIG OPPORTUNITY FOR CANADA TO SECURE TRADE

Vancouver.—Vancouver's strategic position for trade with the Orient, if Canada takes full advantage of the gradual awakening of hundreds of millions of Chinese to the value of modern machinery and, more important, import the food quantities of wheat as compared with rice, was described by Sir Henry Thornton, president of the C.N.R.

At a meeting tendered by the mayor and aldermen to the president and regional officers of the C.N.R., Sir Henry pointed to China as a "slumbering giant" awakening, perhaps by "sections," but nevertheless awakening.

"Hundreds of millions of people are there who have not yet become alive to the fruits of civilization," the speaker declared, "but they are awakening to the value of implements, machinery and railways, and what is more important still to Canada, is the food value of wheat in preference to rice. The demand which will follow in the train of this awakening is an alluring field for this dominion, and Vancouver is the port through which most of the business with that country must be done."

"Canada would be well advised as a nation to systematically and in concentrated fashion attack the opportunities for trade in China and get in on the ground floor."

## New Anaesthetic Gas

Inventor Claims It Is More Rapid and Recovery Is Quicker

Toronto.—The Mail and Empire publishes the following special despatch from Boston:

A new anaesthetic gas has been prepared by Dr. G. H. W. Lucas, of Philadelphia, and Prof. V. E. Henderson, of the University of Toronto. It was explained at the International Physiological congress at the Harvard medical school. They claim for it properties which make it appear as similar to nitrous oxide, but with more satisfactory after-effects.

It is apparently a carbonic gas. Apparently anaesthetization is rapid, with little or no struggling, and recovery takes place almost equally as rapid.

Animals were anaesthetized on three successive days for periods of two hours without showing any apparent subsequent toxic effects. Respiration is of a normal rate and depth, and the blood pressure rises slightly or remains normal.

## Boys Canadian Cars

Australia Good Customer But Buys Cycles From England

Canberra, Australia.—Out of 100,000 complete motor cars imported to Australia in the 12 months ending June 30, 66 per cent. were from the United States, 23 per cent. Canadian, and the remaining 11 per cent. English.

The scales were turned when it came to motor-cycles, however, for more than 80 per cent. of the motor-cycles imported in the 12 months came from Great Britain.

## To Be Deported

Sixty British Immigrants At Winnipeg Refuse To Work

Winnipeg.—Sixty British immigrants, who came to Canada under the assisted passage scheme, have left here for the Atlantic seaboard under deportation arrangements. The men came to Canada about four months ago.

At the immigration hall here it was declared the men with few exceptions, not only refuse farm work, but also any kind of work, insisting on being returned home.

## Speeding Up Mail Delivery

New York, N.Y.—Catalpaught from the deck of the North German Lloyd liner "Bremen" at 9 a.m. while 200 miles from shore, the seaplane New York, brought five sacks of mail to the liner's Brooklyn pier at 7.50 o'clock. This speeded the delivery of the 2,000 letters and post cards by about six hours.

## Lindbergh Chosen As Pilot

New York.—Col. Charles A. Lindbergh will pilot the first plane on a 2,340-mile extension of the Pan-American Airways line to South America, J. T. Trippie, president of the line, has announced.

W. M. L. 1000

## Facing Grain Shortage

Russia Will Have To Import Wheat Says Soviet Official

London, England.—A wheat shortage in Russia was indicated today in an Exchange Telegraph despatch from Moscow, via Riga.

The despatch said that Michael Kalinin, president of the Soviet Central Executive Committee, despite his previous prediction that the Soviet harvest would be 5,000,000 tons better than in 1928, was now reported to have said that Russia must import 50,000,000 roubles worth of grain or force the peasants to work harder.

The situation was declared to be dangerous because of a prolonged drought in the south Ukraine, Volga, and Caucasus regions.

## Ottawa Will Purchase Serum From Winnipeg

Many Cases Of Infantile Paralysis Make Action Necessary

Ottawa.—Mayor Arthur Ellis, of Ottawa, has given authority for the purchase of serum valued at \$500 from Winnipeg for the treatment of infantile paralysis cases in the city. Mayor Ellis' action came following an interview with Dr. W. T. Shilvert, acting medical officer of the city, at which the health official recommended the purchase owing to the difficulty of obtaining the serum locally.

The number of cases reported in Ottawa to date, is 19, which is regarded as an abnormal situation.

## Few Harvesters From Coast

Less Than Five Hundred Have Left

Vancouver.—With a lighter crop and new labor-saving machinery in use on the prairies, only 432 harvest laborers have left Vancouver on the harvest excursions so far this season. It is announced by J. P. McVety, superintendent of the harvesters, in addition 125 have gone from New Westminster and some from other centers. So far only those with jobs guaranteed have been granted the \$10 rate, but as the extent of the harvesting operation grows a few others will be allowed to take their chance of employment.

## Trying To Escape Penalty

Great Zeppelin Stopway Jumps From Steamer But Was Recaptured

Hamburg, Germany.—Albert Buschko found it easier to stow away on the Great Zeppelin for its first flight to Lulea than he is to find it to escape the penalty. He jumped aboard from the steamship "Thuringia" as it entered this port but was soon fished out by a passing lightship and was locked up again on the liner. His stepfather was waiting for him here but was not allowed to take Buschko until the courts have dealt with him.

## Resigns His Position

Hon. C. M. Hamilton Succeeded By Hon. George Spence

Regina.—Resignation of Hon. C. M. Hamilton, minister of agriculture for the province of Saskatchewan, was received by Premier Gardiner, to take effect immediately. Mr. Hamilton has gone to the Head of the Lakes on work regarding his appointment to the Board of Grain Commissioners of Canada.

Hon. George Spence becomes minister of agriculture, according to the announcement made this morning by Premier Gardiner.

## To Test Dirigibles

London, England.—The British dirigibles R-100 and R-101 will be given shed trials during this week. It is expected the R-100 will be launched and taken to Bedford within a month, while the R-101 probably will be launched late in September. One of the dirigibles is to make a flight to Canada and the other to India.

## Resigns Post

Saskatoon, Sask.—Forced by ill-health to return to his old home at Rlyth, Ont., Frank Metcalf, Dominion fruit inspector in Saskatchewan for 18 years, is being succeeded here by J. G. de Jong, of Winnipeg. Mr. Metcalf was presented with an address and purse of gold by fruit men of the city.

## Minister's Daughter Fined

London, England.—Miss Dorothy Thomas, youngest daughter of Mr. Hon. J. G. Thomas, was fined ten shillings in London for causing obstruction by leaving her automobile in St. Paul's Churchyard.

## Making Attempt To Overtake Zeppelin

French Air Ace Has Ambition To Beat Dirigible To Lakehurst

Le Bourget, France.—Dieudonne Coste, French air ace, has started on a slight around the world in pursuit of the German dirigible Graf Zeppelin, which he hoped to overtake and pass before she could reach Lakehurst, N.J., and New York.

The French aviator, who has already made a slight around the world since he crossed the south Atlantic ocean in 1927, told an intimate friend that he would attempt to break his world's non-stop distance record for aeroplanes on the first stage of his race around the world with the Zeppelin.

## RUSSO-CHINESE WAR SITUATION BECOMING GRAVE

Shanghai.—The Nationalist Government "semi" official "Tachung" News Agency issued a despatch under a Harbin date line, saying "although no major developments have taken place on the Manchurian frontier during the past two days, both China and Russia are quietly preparing for war."

The Chinese authorities declared martial law throughout the entire length of the Chinese Eastern Railway as the result of the "increasing gravity of the situation as well as because of a number of incidents along the railway such as the derailing of trains as well as the recurrence of sabotage by both Russians and the Chinese Communists."

The despatch added that the Kirin provincial government had ordered two artillery brigades to proceed to the eastern border of Kirin province to oppose alleged raids by Russian troops. Telephone communications from Harbin to the east have been interrupted and Communist agitators are believed guilty.

A military communique considered to have an ominous aspect, was issued by the semi-official news agency Tachung, stating: "Reliable circles indicate that the Manchurian situation may be expected soon to assume a different aspect inasmuch as the Soviet military demands have failed to produce the desired effect."

The official Nationalist News Agency has issued a bulletin under a Mukden date, saying: "It is learned that some Japanese military officers were found within the Soviet army. It is reported that the Soviet and Japan have entered an agreement whereby Japan promised to assist Russia, the latter promising to give up fishing rights in North Saghalien in favor of Japan. In addition it is believed that Japan is strongly opposed to the powers' intervention in the Sino-Russian crisis which move the United States is believed to have attempted."

PRINCESS MARY'S ELDEST SON  
Hon. George Lascelles, older of two sons of Princess Mary, who is said to resemble his mother very little, but to be the proverbial dead image of his dad, Viscount Lascelles.

## SERVING AT THE HAGUE

Hon. P. C. Larkin, Canada's high commissioner in London, who was appointed to represent Canada at the reparations conference, at The Hague.

## Clips Four Hours Off Record

But "Mauretaula" Two Hours Longer Than Bremen On Eastward Crossing

Plymouth, Eng.—The Cunard liner "Mauretaula," recently deposed by the North German Lloyd liner "Bremen" as the speed queen of the seas, arrived here from New York on her first eastward crossing since she was overhauled in an attempt to crack the "Bremen's" new record.

The "Mauretaula" made the eastward crossing in 4 days, 17 hours, 49 minutes, beating her old record by four hours, but failing by two hours to make the time which the "Bremen" made on her first eastward crossing. The "Mauretaula" averaged 27.22 knots.

## Four Drowned At Stettler

Boat Upset In Buffalo Lake When Storm Broke

Stettler, Alberta.—Hurled into the choppy waters of Buffalo Lake, when a storm broke, two men and two boys were drowned, and another rescued when the small boat to which he was clinging was blown to shore.

The dead are: W. J. Burrell, of Hanna and his two sons, Ernest, aged 10 years, and John, aged 12 years, and Sidney, Steele, also of Hanna. The lad rescued was Harold Burrell, aged 16 years, also a son of W. J. Burrell.

## Georges Clemenceau III

Paris.—Georges Clemenceau, the aged war-time premier of France, was taken suddenly ill at his cottage at Les Sables d'Olonne, on the Bay of Biscay, in Vendee. A doctor summoned from Paris, said, "The Tiger" was over fatigued from writing a book on the war and advised a complete rest. Clemenceau is 88.

## Prepare To Evacuate Rhineland

Brussels.—Belgian troops are preparing for evacuation of the second Rhineland zone on September 15, as an outgrowth of The Hague conference, and as a token of the conciliatory spirit of Belgium toward Germany.

## Americans Show Real Friendship

Help Fight Stubbish Fire On Canadian Farm Near Border

North Portal, Sask.—Fire supposedly starting from a strawstack on the Franke farm, seven miles northwest of North Portal, spread to the prairie grass and threatened the crops and buildings on this and surrounding farms. Fire fighters were soon on hand and worked into the night getting it under control, but it again broke out and a general alarm was sent out by phone and by the blowing of the fire whistle in Portal, N.D.

Citizens, railway employees, customs and immigration officers from both sides of the boundary, headed by Sergt. Bradley, R.C.M.P., turned out in full force, leaving the towns almost deserted, and joined with the farmers making an army of 300 men who fought the flames for five hours, and by backhacking and plowing of fire guards prevented loss of crops and buildings except an old barn on the Almond farm. One of the fire-engines from Portal, N.D., was run out to the John Waddington farm in the vicinity of the fire, and the firemen from the farm buildings. The fire spread shown by the citizens from the U.S. side in helping out the Canadian farmers is highly commended and much appreciated. The dry prairie and the high wind of this time of the most dangerous fires ever known in this district.

## Britain and France Sure To Co-Operate

Reparations Problems Will Not Affect Friendship Says Hon. Jean Kluge

Vancouver.—Problems resulting from the failure of Germany to meet her reparations payments to those countries which suffered great losses as a result of the World War, will be settled so far as Britain and France are concerned, in a spirit of understanding and co-operation, declared Hon. Jean Kluge, first minister of France to Canada, when he addressed a luncheon meeting of the Canadian Club here.

The guest of honor said that although reparations problems offered great difficulties to the nations affected directly by these payments, he was sure that the friendly co-operation of Britain and France would continue.

"Equity and justice based on a thorough understanding will mark the settlement," he declared.

## VARIOUS REASONS ARE GIVEN FOR GRAIN TIE-UP

Montreal.—Warnings of the European buyer; consumption of home-grown wheat in many European countries; the price of Canadian wheat and just "market conditions" were various reasons ascribed in different quarters to the tie-up of Canadian wheat in Montreal and other eastern ports.

Whatever the cause, there are 120 inland ships laid up in the ports between the lakes and the Atlantic and some 1,800 Canadian sailors. It is estimated, are idle; the bins of elevators here are practically full and there is no indication of a break.

While the large steamship concerns are feeling the pinch keenly, with probably half of their ships standing idle, the lot of the small owner, of the man with one or two ships, is even more serious.

The new crop will be on the move very shortly, but marketing conditions are unsatisfactory. Local dealers report both the United States and the Argentine as underselling Canada and, while the European buyer must have a certain amount of Canadian grain, he is buying a minimum in the face of this competition, it is stated here.

Canadian seamen, out of employment through the tie-up, are going to the United States in search of employment, declared J. H. Parr, president of the Canadian Seamen's Association.

The present hold-up of grain in the port of Montreal is wholly a question of price. The time will come when the wheat will have to meet the view of the European buyer on price, or he will have to meet ours. In the meantime, our products are not moving, said Frederick Heywood, export manager for James Richardson and Sons, Limited. He held that Canadian prices were wholly a matter of market conditions and did not hold the Canadian wheat pool to blame.

## BELIEVE NAVAL PARLEY PLANS NEARLY FINISHED

Washington, D.C.—Developments in the naval reduction negotiations between the United States and Great Britain are rapidly reaching the point where representatives of the two nations will be able to inform the public as to whether a conference will be held this present year.

Disclosure at the White House that Prime Minister Ramsay MacDonald is now expected to arrive at Washington early in October for a conference on the naval situation with President Hoover was interpreted by official Washington as strong indication not only that a naval parley will be held, probably in December, but that it will have a good chance of being successful.

The deduction drawn from the answers of the White House to questions regarding the significance of MacDonald's coming to the United States was that the British official would not be likely to make the trip to Washington unless the great work was prepared in advance for a conference.

The present exchanges between the British and American aviators, of which France, Italy and Japan are being kept fully informed, are apparently shaping towards having Great Britain issue the invitations for the conference, with London as the meeting place.

## Italian Planes Wrecked

Were To Be Used In Race For Schneider Cup

Sensano, Italy.—Italy is rearranging her plans to capture the Schneider Cup from Great Britain, September 7, as a result of the wrecking of two Fiat planes, and the lack of sufficient time to give the third Fiat a complete and thorough trial. Nine machines are left out of the 12 that Italy had groomed for the supreme speed test.

The Fiat were regarded as the masterpieces of Italian aviation. They were designed by the engineer, Fiatelli, and their motors were planned by the engineer Zerbo, of the Fiat company. They are known as the lightest weight planes weighing only 2,600 pounds including the motor.

## Assembling Large Seaplane

Buffalo Concern Plans To Use It On Great Lakes

Philadelphia.—A seaplane capable of carrying 50 persons, believed to be the largest in America, is being assembled at the Philadelphia navy yard. It is destined for operation on the great lakes but Buffalo concern. It will carry 30 passengers and a crew of 20. It has a wing-spread of approximately 94 feet, four air-cooled motors of 450-horsepower each, and gasoline capacity of 10,000 gallons.

## Floods Destroy Persian Town

Teheran, Persia.—A flood which drowned 100 persons and destroyed 5,000 houses, was reported from Teheran. The town houses, with 3,200 bales of merchandise was damaged and streets washed out in places to a depth of nine feet. The government has authorized immediate expenditure of \$4,000 for the erection of levees.

## Widow Placed Under Arrest

Sheho, Sask.—Annie Pasowsky has been placed under arrest in connection with the murder of her husband, Nick Pasowsky, who was found shot to death August 1, John Pasowsky, who confessed to killing his father is at present in custody at Prince Albert.

## Had To Cancel Engagement

Calgary.—Stricken with illness upon his arrival in Calgary, the Right Hon. Lord Hanworth, P.C., K.B.E., master of the rolls, of London, Eng., who was to have addressed the Calgary Bar Association at luncheon, was obliged to ask that the engagement be cancelled.

## Daylight Flight Feasible

Roosevelt Field, N.Y.—Capt. Roscoe Turner, who took off with three passengers from Chicago, Cal., in an attempt to demonstrate the feasibility of a daylight transcontinental aeroplane passenger service, landed here, making the trip in 19 hours and 53 minutes.

Road making in Britain used up 13,040,000 tons of granite and limestone in 1927, produced from British quarries.

## C.P.R. Champion Sheep

Canadian Pacific flock of Suffolk sheep at Tilley, Alta., there are 300 of them—have been sweeping the board in western stock exhibitions lately. Against strong competition at the Saskatoon Exhibition they won every first prize and every championship. Also shows in above is the C.P.R. champion Hampshire ram which took first prize in every show in which it was entered. Prize sheep and cattle on the C.P.R. experimental farms in the West are doing a great work in improving stock in the Prairie Provinces.

For hitting Kelly, Pincher Creek's town constable, a road worker was sentenced to a term of five months in jail.

He: "We're coming to a tunnel. Are you afraid?"  
She: "Not if you take that cigarette out of your mouth."

Who made the first radio?  
Answer: Adam; he took one of his spare parts and made a loud speaker.

An annual Labor Day service will be held in the United Church on Sunday evening next, September 1st, at 7:30 o'clock.

Joe Lombardi, formerly of Blairmore, was taxed a fine of \$35 and costs for running a gaming house at Kimberley.

Miss Celli, of Coleman, nurse-in-training at Holy Cross hospital, Calgary, is visiting in town this week with Miss Milda Bond.

Bill Antle, for eight years assistant forest ranger Harry Boulton, has been appointed to succeed Harry Nasas ranger at the North Fork.

A number of new residences are in course of construction in Blairmore, one of which is a fine four-room house being erected by E. J. Pozzi on Main Street east.

Mr. G. A. Passmore, C.P.R. agent, is having his annual vacation and is being relieved by O. A. Bettér. McMurichie, who is also on vacation, is being relieved by E. A. Chiswell.

James Smythe, of Cowley, has disposed of his farm properties to J. Herder, of Rosthern, Saskatchewan, at a price of around \$45 per acre. The property consists of some 700 acres.

It is reported that Joseph DuChampain, now in Canada, carries a letter addressed to Premier Taschereau, of Quebec, from the Newfoundland government, empowering him to undertake negotiations for the sale of Labrador. A tentative price is said to be one hundred and ten million dollars, of which ten millions, the report says, would be paid to certain interests represented by DuChampain, who have timber claims in the district.

## Here and There

(270)  
Two scholarships at McGill University, Montreal, covering five years' tuition for employees who are minors or minor sons of employees have been awarded by the Canadian Pacific Railway this year, one to C. P. Sturdee, son of E. F. L. Sturdee, assistant general passenger agent and the other to William F. Dunlop, son of John Dunlop of the pension department of the railway at the head office of the company. The scholarships provide for one year's tuition in the faculty of arts followed by four years' tuition in architecture, chemical, civil, mechanical or electrical engineering.

Right Hon. Winston Churchill, Chancellor of the Exchequer in the late Baldwin Government in Great Britain, arrived in Canada recently on the Empress of Australia and made a tour of the country from Montreal to Victoria. He visited Toronto, Hamilton, Niagara Falls, Winnipeg, Regina, Edmonton, Calgary, Banff, Lake Louise, Bismarck, Vancouver and Victoria. He will leave the latter city September 5 arriving at Seattle the same evening. He travelled Canadian Pacific railway and steamship during the whole of his trip.

Purchased for a sum in excess of \$50,000, an oil painting of Lord Peterborough by Sir Anthony Van Dyck, court painter to King Charles I., was carried by the Canadian Pacific Express Company by steamer Montreal to Montreal recently, very special precautions being taken to ensure safe delivery. It was bought by A. J. Nesbitt, present business leader of Montreal.

Mr. and Mrs. Todd, of Fernie, were visitors with friends in Blairmore and Coleman yesterday.

Visit the new C.W.L. Hall in Bellevue, opposite the arena, on Labor Day. Refreshments will be served.

Mr. and Mrs. Macalister are taking up residence in apartments over the Thompson Co's Greenhill store.

E. J. ANDERSON, B.Sc., eyesight specialist, will make his regular visit to Blairmore Pharmacy on Saturday, September the 7th.

STUCCO HOUSE FOR SALE, in West Blairmore, with four rooms, large pantry and cellar. Apply to The Enterprise.

FOR SALE — Modern Blairmore residence, desirably located, "with eight rooms and bath, full cement basement, fully furnished, including piano, etc. Apply to The Enterprise.

Miss Janet Nicol, of the Edmonton teaching staff, who had been holidaying here with J. W. Gresham and family, returned to Edmonton by last night's train.

Mrs. G. Meffan and her mother, Mrs. Gray, senior, who had been holidaying at Kootenay Lakes, returned home last night. Mrs. R. Gray and children who had been with them, will return this week end by auto.

Norman McCausland, at one time a resident at Pincher Creek and well known in Lethbridge, where he frequently visited his sister, Mrs. H. J. Goode, now of St. Thomas, Ontario, was married last week to Miss Anna Leonor, daughter of the late Capt. John Limpert, of Hespeler, Ontario. They will take up their residence in Toronto.

Talk about your greenhorn fishermen! We happened the other day to notice a prominent Lethbridge merchant, wading down the waters of the South Fork river, using a well-mounted fishing rod in one hand and carrying a fly-swat in the other. This latter device he apparently intended to use as a landing net.

Word has been received by the local school board from Mr. Gilles, who was recently offered the position of vice-principal here, to the effect that he is unable to accept the position. At present, it looks as though it will be impossible to secure a vice-principal for the opening of the fall term on Tuesday next.

While the provincial government has not had opportunity to deal officially with the request of Hon. Chas. Stewart, minister of the interior, for co-operation in prohibiting camping in sections of the province between the Bow river and the international boundary, with a view to guarding against the fire menace, there is no doubt that the request will be complied with, according to a statement made, Wednesday by Premier J. E. Brownlee.

On August 21st, J. M. Murray, government weed inspector, brought Henry Sharples, of the Clarendon district, into court at that place on two charges of failing to destroy noxious weeds after repeated warnings. Sharples was found guilty and fined \$5.00 and costs on both charges by Magistrate Amundsen. Again on August 24th, at Macleod, J. MacDonald was charged before Magistrate Bright for a similar offence of the Noxious Weeds Act and also found guilty and fined \$5.00 and costs. This should be a warning to others.
